

## "Unificados"

Combining both dedication and passion,  
held true by every backstretch worker,  
coupled with the forceful beauty of the Thoroughbred racehorse...Then enriched by the  
tireless efforts of the B.E.S.T organization...this painting has come to pass.

As a witness to this delicate balance,  
and all too often thankless pursuit...

It is from a special place that I drew inspiration for "Unificados". Horse racing and its  
traditions, has given us all much to be grateful for...

However, it remains so much more than just triumph through sport.

It is about common love for the horse, respect for the people who tend to them, and serving  
those in time of need. It is my hope, that this painting will reflect our commonality, our  
equality, and the unified bond between Man, Horse, and Goodwill
