**DEAUVILLE ENDS ON A HIGH**

Arqana's Breeding Stock section of the December Sale concluded with record returns yesterday after a largely jumps-orientated third session. As on the two previous days, the average represented a major jump from 12 months ago, with the figure of €15,726 up by 77 per cent. In total, the gross of €17,706,000 exceeded last year's amount by over €10 million, while the average of €35,988 was an increase of 92 percent on the 2005 equivalent. Arqana President Eric Hoyeau reflected on a memorable auction. "We are more than satisfied

with the results and delighted that the vendors who supported the Deauville market were so handsomely rewarded," he commented. "We will do our best to improve further still the quality of mares, fillies and foals on offer in December." **Sorelia (Fr)** (Sillery), a half sister to champion chaser Mid Dancer (Fr), attracted yesterday's top price of €100,000. The mare, in foal to Turgeon, was consigned by Haras de Grandcamp and sold to Irish owner and breeder Olive O'Driscoll. Yesterday's top-priced foal was lot [517](#), a colt by Ballingary (Ire) from a top jumping family. Also consigned by Haras de Grandcamp, the foal was purchased for €90,000 by Herve Barjot on behalf of Pegasus Farms. Chief among the flat purchases was Haras de la Cauviniere's hip [573](#), the filly **Pasta Brown (Fr)** (Cape Cross {Ire}), who is out of a half to the top-class Master David. Marc-Antoine Bergracht's MAB Agency paid €50,000 for the four-year-old, who is also from the family of Bint Pasha and Nayef. Of the flat foals, hip [453](#) attracted the keenest attention and it was McKeever St Lawrence who secured the son of Elusive City for €35,000. From the family of the dual group-winning sprinter Eastern Purple (Ire), he was consigned by Haras de Coulonces. Today sees the one-day Yearlings and Horses in Training Sale beginning at 11 a.m. Full results, catalogue and updates can be viewed at [www.deauville-sales.com](http://www.deauville-sales.com). It was in 1982, at the Academy Awards ceremony in Los Angeles, that the English-born Colin Welland branched his Oscar for his Chariots of Fire screenplay and shouted, "The British are coming!"

Unfortunately for the British movie industry, Welland's forecast has proved none too accurate. But I am pretty sure that the British will soon be flocking to Hollywood--the racecourse, not the movie-making centre--now that the California tracks are converting to synthetic surfaces. And the British will be accompanied by plenty of other European turf horses, judging by a couple of races on Hollywood Park's new Cushion Track.

Dec. 1 saw the ex-French filly Phantom Rose make her main-track debut in an allowance on the Cushion Track and she handled the new surface extremely well, winning with all the authority she had displayed when she easily won a Listed race on a softish turf track at Maisons-Laffitte in May. **Andrew Caulfield cont. p2**

Two days later, the Bayakoa H. was contested over the same course and distance. This Grade II contest attracted a dozen fillies, with the eight American-bred defenders being opposed by one British-bred challenger, one Irish-bred and two Chilean-breds. Although the American team included the first two choices in the betting, they were out-pointed by the foreign-breds, with the British-bred Foxysox just getting the better of the Irish-bred Round Heels, with the Chilean imports being next across the line.

Interestingly, Phantom Rose is a daughter of the great Danzig, whereas Foxysox is by Danzig's son Foxhound, and these two fillies lend support to the theory that the Danzig male line is heading for a resurgence in America, as more and more tracks are changed to synthetic. Castleon Lyons has imported Danzig's proven son Anabaa, while Coolmore has switched Danzig's royally bred son Mull of Kintyre to Ashford, where he will join Monashee Mountain, another Danzig horse who started his career in Ireland. Adena Springs is also gearing up for the switch away from traditional dirt, with a team which includes Danehill's Derby-winning son North Light.

Foxysox arrived in the U.S. having failed to win in five starts in Britain. However, she had more than recouped her purchase price of 13,000gns when third of 30 in a very valuable sales race at Newmarket, and it took 40,000gns to buy her at Tattersalls' Horses in Training Sale. She has proved an excellent buy, as she has now won five of her nine starts and it was by only a head that she was beaten by Arravale in the GI Del Mar Oaks.

Foxysox Horsephotos

Foxysox's sire Foxhound is a true globe-trotter. Indeed, I made the following comment about him back in 2001:

"There is no denying the potential of Foxhound, an extremely well-bred stallion son of Danzig, but the question exists as to whether he has been in any one place long enough to build up a sound future. His history so far is that he spent his first season in 1996 in Ireland, at a fee of IR4,000gns, before being transferred to Kentucky, where he initially stood for as little as \$4,000 at Hill 'n' Dale Farms. Then Foxhound's Irish crop reached the track in 1999, with several of them doing so well that Foxhound was whisked back across the Atlantic to stand at Castle Hyde Stud in 2000. His connections then faced the task of maintaining interest and support in a stallion whose stock is racing mainly at minor tracks in the States and it was decided to lease Foxhound to stand the 2002 season in England."

Foxhound has also stood in Chile and has spent several Southern-Hemisphere seasons in Australia, which appears to have become his permanent home since 2004. **Andrew Caulfield cont. p3**

**Andrew Caulfield cont.**

Foxhound generally covered very ordinary mares in his first season in Ireland, but still managed to sire the group winners Mount Abu (G1 Prix de la Foret) and Kier Park and the Listed winners Scarteen Fox and Peruvian Chief. His best representative in the USA before Foxysox's arrival was probably the Grade II-placed USS Tinoso.

I fear that Foxhound's many changes of location have ultimately counted against him, but he had every right to be a successful stallion, as his first three dams are those celebrated mares Lassie Dear, Gay Missile and Missy Baba.

You'll hardly need me to recount all of this female line's magic moments. Suffice it to say that Missy Baba's six stakes winners included champion sire Raja Baba; that Gay Missile produced four stakes winners headed by the top-class Gay Mecene; and that Lassie Dear also produced four stakes winners, including Weekend Surprise, the phenomenal producer who was voted 1992's Broodmare of the Year. Weekend Surprise's three eldest sons have all sired winners in the ultra-competitive action of Breeders' Cup day, with A.P. Indy being responsible for Tempera, Honor Grades for Adoration and Summer Squall for Storm Song. Weekend Surprise's half-brother Deerhound also got into the act by siring Countess Diana, winner of the Juvenile Fillies in 1997.

Deerhound and Foxhound are brothers and they are also closely related to Honor Grades, another son of Danzig. Incidentally, Missy Baba's grandson Gay Mecene ranks as the broodmare sire of Anabaa, one of Danzig's champion sprinting sons, and of Anabaa's highly talented three-parts brother Key of Luck. A grandson of Danzig, Key of Luck sired the Derby winner Alamshar.

Although Foxysox was an inexpensive yearling, she comes from a sprinting family which has produced some very fast horses, including Fayruz, Jester, Averti and Reesh. Her broodmare sire Royal Academy was also an excellent sprinter, but he stretched his stamina to a mile when he scored on Breeders' Cup day. The under-valued Royal Academy is developing into a successful dam sire, this year's top European juvenile filly Finsceal Beo being another notable winner out of one of his daughters.

**HORSEMEN SUE NYRA** According to published reports, New York horsemen have sued the New York Racing Association for its handling of between \$15 million and \$20 million in funds that they claim should have been directed to purses. The horsemen allege that NYRA underestimated future handle when calculating the amount to distribute to the purse cushion, then did not make up the difference between the estimate and what was actually wagered, instead using the funds for operating costs. The suit was filed Thursday, Nov. 30 in U.S. Bankruptcy Court in Manhattan, and will be an addendum on NYRA's bankruptcy case. A hearing has not yet been scheduled.

**REGULATION OF STEROIDS TO BE RECOMMENDED** By Tom LaMarra and Deirdre B. Biles, courtesy of [www.bloodhorse.com](http://www.bloodhorse.com).

Members of the Racing Medication and Testing Consortium are expected to recommend regulation of anabolic steroids in racehorses, but the timetable for the regulations remains up in the air. RMTC officials earlier in the year said they hoped to have a policy by the end of this year. There has been some division over the issue, in part because Federal Drug Administration-sanctioned anabolic steroids are widely used in racehorses and are listed as Class 4 therapeutic drugs. There is some support in the industry to have anabolic steroids reclassified to a Class 3 substance under Association of Racing Commissioners International guidelines, but it remains to be seen if that recommendation will be issued and regulators will embrace it. The use of steroids in racehorses is regulated in other countries. "The RMTC is going to recommend that anabolic steroids be regulated in racing," Dr. Rick Arthur, equine medical director for the California Horse Racing Board, said Dec. 2 during the "Purchase Exam at Public Auction Forum" at the American Association of Equine Practitioners convention in San Antonio, Texas.
